A Future

Some Impressions

We are a registered charity in Germany that guarantees immediate and direct development aid. We are also registered in Kenya. As a small organisation we help to find solutions to the problems which Kenya's orphans have to face in day-to-day life. We support them and offer them a chance to lead an independent life.

Our motto is:
Actions speak louder than words.

A Roof Over Their Head

FUTURE FOR CHILDREN e.V. has bought land and built an orphanage on the South Coast of Mombasa. We offer the children hope for their future whilst guaranteeing their basic needs. This includes regular meals, clothes, medical supplies and health education. We also provide for their basic education and advance their talents: we teach them how to usefully spend their spare time and provide guidance in choosing their occupation. Our children are nurtured within a close community, structured like an extended family.

The orphanage consists of 350 sqm of housing. The ground floor has a large and friendly living room, a dining area, a spacious kitchen and includes space for storage, a laundry room and an office. On the first floor there are 3 large bedrooms with 4 beds in each room and a baby unit. There are also 2 rooms for the care support staff including WC's and shower rooms, as well as a living room area. The annexe consists of 4 colourful bedrooms to share for 4 children each, separate shower rooms and WCs for boys and girls.

We provide fresh and healthy drinking water from our well via a sterilization plant. Our biogas plant provides environmentally friendly gas for cooking and baking in our kitchen.

We call a small property of 4,000 sqm with chickens, cows and goats our own. We grow and harvest our own vegetables and fruit, e.g. tomatoes, paprika, pumpkins, spinach, aubergines, carrots, sukuma wiki, sweet potatoes, cucumbers, papaya, mangoes, pineapples, bananas, passion fruit and guavas.

We have an underground rain water reservoir which enables us to grow these products and provide a well-balanced and varied diet.

It is our belief that the future is best realised through education. To improve on this we have started building our own school "the MAKEMBA Academy" on one of the neighbouring plots. The goal of the 'Academy' is to provide 8 years of primary education followed by 4 years of secondary education for each child. Additional workshops will further their talents and guide the children towards an optimal choice of occupation, as well as their independence in the future. A high proportion of the children continue to help with the orphanage in adult life, so promoting is a virtuous circle of benefit for all.

*But more needs to be done...
We are in urgent need of financial support.
Please help us by donating regular funds
to give these children a future.*

OUR AIM ...
...is to implement **FUTURE FOR CHILDREN e.V.** as a competent first step for orphaned children and children in need, to get a chance for a better future.

OUR MISSION ...
...is to offer abandoned, orphaned and mistreated children a home and a future. The children will be individually supported and guided to be self-sufficient.
